Work Experience *(Experience 3years 3months)*

HCLTech 15th September 2022 - Present

Analyst | 30th September 2023 – Present

- Provide operational support by creating and maintaining a stable, secure, and reliable GemFire environment.
- Establish GemFire standards, best practices, and educate users for consistent implementation.
- Design, install, configure, and upgrade GemFire clusters, including version management and node scaling.
- Perform cluster design reviews, code reviews, and release management covering deployments, data operations, and loads.
- Implement and monitor GemFire performance, capacity, and health to ensure optimal cluster efficiency.
- Configure and manage monitoring, alerting, and WAN replication for high availability and resilience.
- Design, test, and maintain backup, restore, and disaster recovery solutions for GemFire clusters.
- Provide 24x7 operational support and maintain system security through regular OS patching and vulnerability management.
- Automate platform tasks to increase efficiency, reduce manual intervention, and ensure consistent operations.

Graduate Engineer Trainee | 15th September 2022 – 30th September-2023

- Monitor and troubleshoot platform infrastructure by tracking performance, identifying issues, and resolving them promptly.
- Planning and Implementations of Change management & RITM's.
- Collaborate with developers to enhance platform performance and reliability through guidance, support, and joint improvements.
- Participate in platform planning, development, and implementation of new initiatives and improvements.

Core Competency Skills

- **Programming Languages:** C Programming, Python Programming
- **Operating Systems**: Linux [ubuntu & RHEL], Windows
- **Version Control:** Ansible, Git & GitHub, Bitbucket
- **Monitoring Tools:** ServiceNow, New Relic, Splunk
- **Software Tools:** Tanzu Pivotal GemFire 10.x.x, Confluent Kafka
- **Cloud Platforms:** AWS

Achievement

- **Silver Club Member x5** - Recognized for outstanding performance and leadership in delivering critical projects ahead of schedule.
- **RNR x1** - Recognized for outstanding performance and leadership in delivering critical projects ahead of schedule.

Certifications

- AWS Certified Cloud Practitioner
- Cisco Verified CyberOps Associate

Education

UG-Electrical & Electronics Engineering | SJBIT (2018-22) | CGPA- 7.98/10
PUC-Science [PCMB] | Jnana Sampada PU College (2016-18) | 91%
HSC-Jnana Bharthi High School | 94.24%
